# Railroads and Weather

From Fogs to Floods and Heat to Hurricanes,  
the Impacts of Weather and Climate on  
American Railroading

Stanley A. Changnon

American Meteorological Society  
Boston, Massachusetts

# CONTENTS

	<i>Preface</i> .....	vii
CHAPTER 1	Dealing with the Weather .....	1
CHAPTER 2	Weather Impacts: The Good and the Bad .....	9
	Benefits of Weather .....	10
	Problems Caused by Weather .....	13
	Costs of Weather .....	17
CHAPTER 3	Examples of Weather Problems in Different Climatic Regions .....	27
	The Drought of 1987–89 .....	28
	The Floods of 1993 .....	30
	Hurricane Diane in August 1955 .....	41
	The 1951 Mississippi Ice Storm .....	43
	A Windblown Runaway Train in 1997 .....	45
	A Fog-Induced Accident in 1991 .....	46
	West Coast Storms, December 1996 – January 1997 .....	47
INSET	Identifying Cloud Types in Train Photographs .....	55
CHAPTER 4	Effects of Various Weather Conditions .....	65
	Fog .....	65
	High and Low Temperature Extremes .....	68
	Heavy Rains and Floods .....	72
	Heavy Snowfall and Blizzards .....	76
	Ice Storms .....	82
	Winds, Hurricanes, Tornadoes, Lightning, and Dust Storms ...	84
	Climate Aberrations .....	89
CHAPTER 5	Planning for and Responding to Weather .....	93
	Pre-Event Preparations and Post-Event Adjustments .....	93
	Post-Event Responses .....	106
	Railroad Responses to Hurricane Katrina: A Success Story ...	107
CHAPTER 6	The Evolving Relationship between Weather and Railroads .....	111
	<i>Sources</i> .....	115
	<i>Glossary</i> .....	117
	<i>Railroad Abbreviations and Index</i> .....	121
	<i>General Index</i> .....	123
	<i>About the Author</i> .....	125
