Preface	ix

PART 1 SYSTEM DESIGN

Introduction	
K. A. Browning	1
1.1 User Requirements for Very-short-range Weather Forecasts	
A. H. Murphy and B. G. Brown	3
1.2 Designing a Very-short-range Forecasting System	
D. W. Beran and A. E. MacDonald	17
1.3 Blueprint for the Future Swedish Weather Service System	
S. Bodin	25
1.4 The Mesoscale Observational Network in Japan	
R. Tatehira, M. Hitsuma and Y. Makino	37
1.5 An Integrated Radar-satellite Nowcasting System in the UK	
K. A. Browning and C. G. Collier	47

PART 2 NEW FORMS OF OBSERVATIONS

Introduction	
K. A. Browning	63
2.1 Ground-based Remote Sensing for Meteorological Nowcasting	
C. G. Little	65
2.2 Nowcasting Applications of Doppler Radar	
J. W. Wilson and K. E. Wilk	87
2.3 Mesoscale Observations from a Polar Orbiting Satellite Vertical Sounder	
G. A. M. Kelly, B. W. Forgan, P. E. Powers and J. F. Le Marshall	107

2.4	Nowcasting Applications of Geostationary Satellite Atmospheric Sounding Data W. L. Smith, V. E. Suomi, F. X. Zhou and W. P. Menzel	123
2.5	Nowcasting the Position and Intensity of Jet Streams Using a Satellite-borne Total Ozone Mapping Spectrometer M. A. Shapiro, A. J. Krueger and P. J. Kennedy	137
PART 3 SIMPLE FORECASTING METHODS		
	Introduction K. A. Browning	147
3.1	Subjective Interpretation of Geostationary Satellite Data for Nowcasting J. F. W. Purdom	149
3.2	Automated Techniques for the Analysis of Satellite Cloud Imagery E. Liljas	167
3.3	Very-short-range Forecasting of Precipitation by the Objective Extrapolation of Radar and Satellite Data G. L. Austin and A. Bellon	177
3.4	Use of a Conceptual Model of the Life-cycle of Mesoscale Convective Systems to Improve Very-short-range Forecasts E. J. Zipser	191
PART 4 USE OF NUMERICAL MODELS		
	Introduction K. A. Browning	205
4.1	The Role of Mesoscale Numerical Models in Very-short-range Forecasting R. A. Pielke	207
4.2	Model Forecasts for Locally Forced Mesoscale Systems K. M. Carpenter	223
4.3	An Example of the Use of Satellite Cloud and Surface Rainfall Data to Initialize a Numerical Weather Prediction Model T. T. Warner, T. C. Tarbell and S. W. Wolcott	235
	 Subject Index	 249
