

RADAR IN METEOROLOGY

Edited by DAVID ATLAS

American Meteorological Society

RADAR IN METEOROLOGY: BATTAN MEMORIAL AND
40TH ANNIVERSARY
RADAR METEOROLOGY CONFERENCE

EDITED BY

DAVID ATLAS

American Meteorological Society
Boston
1990

Table of Contents

Preface	ix
Acknowledgments	xi
Tribute to Professor Louis J. Battan	xiii

I. HISTORY

1 Early Developments of Weather Radar during World War II	3
<i>J.O. Fletcher</i>	
2 Weather Radar in the United States Army's Fort Monmouth Laboratories	7
<i>Donald M. Swingle</i>	
3 Radar Meteorology at Radiation Laboratory, MIT, 1941 to 1947	16
<i>Isadore Katz and Patrick J. Harney</i>	
4 Weather Radar at MIT	22
<i>Pauline M. Austin and Spiros G. Geotis</i>	
5 A History of Weather Radar Research in the U.S. Air Force	32
<i>James I. Metcalf and Kenneth M. Glover</i>	
6 Radar Meteorology at the National Severe Storms Laboratory, 1964-1986	44
<i>Edwin Kessler</i>	
7 A History of Radar Meteorology in the United Kingdom	54
<i>J.R. Probert-Jones</i>	
8 The Stormy Weather Group (Canada)	61
<i>R.H. Douglas</i>	
9 History of Radar Meteorology in Japan	69
<i>Nobuhiko Kodaira and Jiro Aoyagi</i>	
10 Radar Meteorology in India: A Brief Historical Perspective	77
<i>S.M. Kulshrestha</i>	
11 Radar Meteorology in The People's Republic of China	80
<i>Yu-Mao Xu</i>	
12 Early Foundations of the Measurement of Rainfall by Radar ...	86
<i>David Atlas and Carlton W. Ulbrich</i>	

13	Advances in Precipitation Physics Following the Advent of Weather Radar	98
	<i>A.S. Dennis and W.F. Hitschfeld</i>	
14	Polarization Diversity in Radar Meteorology: Early Developments	109
	<i>Thomas A. Seliga, Robert G. Humphries, and James I. Metcalf</i>	
15	Foundations of Severe Storm Detection by Radar	115
	<i>Ralph J. Donaldson</i>	
16	The Early Years of Doppler Radar in Meteorology	122
	<i>R.R. Rogers</i>	
17	The History of Radar Studies of the Clear Atmosphere	130
	<i>Kenneth R. Hardy and Kenneth S. Gage</i>	
18	Lightning Investigation with Radar	143
	<i>Earle R. Williams, Vladislav Mazur, and Spiros G. Geotis</i>	

II. SCIENCE AND TECHNOLOGY

19a	Technology of Polarization Diversity Radars for Meteorology .	153
	<i>V.N. Bringi and A. Hendry</i>	
19b	Technology of Polarization Diversity Radars for Meteorology: Panel Report	191
	<i>James I. Metcalf</i>	
20a	Signal Processing for Atmospheric Radars	199
	<i>R. Jeffrey Keeler and Richard E. Passarelli</i>	
20b	Signal Processing: Panel Report	230
	<i>Dusan S. Zrnić</i>	
21a	UHF/VHF Radar Techniques for Atmospheric Research and Wind Profiler Applications	235
	<i>J. Röttger and M.F. Larsen</i>	
21b	Clear-Air Radar Technology: Panel Report	282
	<i>Ben B. Balsley</i>	
22a	Meteorological Radar Observations from Mobile Platforms	287
	<i>Peter H. Hildebrand and Richard K. Moore</i>	
22b	Airborne/Spaceborne Radar: Panel Report	315
	<i>David P. Jorgensen and Robert Meneghini</i>	
23a	Cloud Microphysics and Radar	323
	<i>A.R. Jameson and D.B. Johnson</i>	

23b Cloud Microphysics and Radar: Panel Report	341
<i>Kenneth V. Beard and Robert M. Rauber</i>	
24a Convective Dynamics	348
<i>Peter Ray</i>	
24b Convective Dynamics: Panel Report	391
<i>R. Carbone, B. Foote, M. Moncrieff, T. Gal-Chen, W. Cotton, M. Hjelmfelt, F. Roux, G. Heymsfield, and E. Brandes</i>	
25a Radar Observations of Tropical Weather Systems	401
<i>Frank D. Marks, Jr.</i>	
25b Tropical Meteorology: Panel Report	426
<i>Edward Zipser, Alan Betts, Frank Ruggiero, and Barry Hinton</i>	
26a Organization and Internal Structure of Synoptic and Mesoscale Precipitation Systems in Midlatitudes	433
<i>K.A. Browning</i>	
26b Mesoscale Organization and Processes: Panel Report	461
<i>David B. Parsons, Bradley F. Smull, and Douglas K. Lilly</i>	
Appendix: Notes on the Physical Mechanisms of Mesoscale Precipitation Bands, Kerry A. Emanuel	
27a Radar Research on the Atmospheric Boundary Layer	477
<i>Earl E. Gossard</i>	
27b The Atmospheric Boundary Layer: Panel Report	528
<i>Robert A. Kropfli</i>	
28a Radar Observations of the Free Atmosphere: Structure and Dynamics	534
<i>Kenneth S. Gage</i>	
28b Radar Observations of the Free Atmosphere: Panel Report	566
<i>W.H. Hooke</i>	
III. OPERATIONAL APPLICATIONS	
29a Precipitation Measurement and Hydrology	577
<i>Jürg Joss and Albert Waldvogel</i>	
Appendix A: Radar Data Processing and Short-Period Forecasting in the United Kingdom, C.G. Collier	
29b Precipitation Measurement and Hydrology: Panel Report	607
<i>Paul L. Smith</i>	
30a Severe Thunderstorm Detection by Radar	619
<i>Donald W. Burgess and Leslie R. Lemon</i>	

30b Severe Storm Detection: Panel Report	648
<i>Joseph H. Golden</i>	
31a The Application of Weather Radar to Aviation Meteorology ...	657
<i>T. Theodore Fujita and John McCarthy</i>	
31b Aviation Meteorology: Panel Report	682
<i>James Wilson</i>
