TABLE OF CONTENTS

CHAPTER 1 INTRODUCTION

1.1 Historical Perspective 1
1.2 Scope and Orientation of Text 3

CHAPTER 2 CHARACTERIZING FOREST STANDS

2.1 Foliage Density and Vertical Distribution 5
2.2 Forest Micrometeorology 10
2.3 Foliage as Filter for Atmospheric Particulates 15
2.4 Foliage Simulators 19
2.5 Importance of Properly Defining the Biological Interface 23

CHAPTER 3 PROPERTIES OF SPRAY FORMULATIONS

3.1 Biological Toxic Requirement and Droplet Size 26
3.2 Effects of Viscosity, Surface Tension, and Volatility 29
3.3 Summary 39

CHAPTER 4 SPRAY AIRCRAFT AND ATOMIZERS

4.1 Aircraft in Use 41
4.2 Aircraft Wake Behaviour 44
4.3 Droplet Generation and Atomizer Types 50
4.4 Atomizer Characterization Methods 54
4.4.1 The PMS Spectrometer 55
4.4.2 The Malvern Spectrometer 64
4.4.3 Other Spectrometer Devices 67
4.5 Atomizer Droplet Spectrum Data 67
4.6 Correlations for Atomizer Emission Characteristics 73
4.7 Dry Material Dispensing Devices 73

CHAPTER 5 RESEARCH FIELD TRIALS

5.1 Introduction 78
5.2 Measurements and Analytical Methods 79

5.3 The Mass Balance Test as a Measure of Accuracy In Field Trials 90
5.4 Experimental Design, Management, and Costs 91

CHAPTER 6 MODELING SPRAY APPLICATION, DISPERSION, AND DEPOSITION

6.1 Introduction 97
6.2 Details of the PKBW model 99
6.1.1. Wake Velocity Distributions 99
6.1.2. Trajectory Calculations 99
6.1.3 Velocity and Turbulence in the Atmospheric Boundary Layer 102
6.1.4 Calculating Deposition on Canopy and Ground 104
6.1.5 Input Data for a Typical Run 105
6.1.6 Output for the Example 105
6.3 Model Validations and Comparisons: PKBW Model 111
6.4 Off-target Drift and Buffer Zone Estimation 114
6.4.1 Some Field Data 114
6.4.2 Use of PKBW for Drift Analysis 124
6.5 Simulation of Block Spraying, PKBW Model 126

CHAPTER 7 SPRAYING IN COMPLEX TERRAIN

7.1 Introduction 130
7.2 Air flows in Well-defined Mountain Valleys 130
7.3 Implications with Respect to Pesticide Spraying 130
7.4 Predicting Pesticide Dispersion and Deposition in Valleys 134
7.5 Comment 137

CHAPTER 8 SPRAYING INNOVATIONS

8.1 Introduction 139
8.2 Drop Size Optimization 139
8.2.1 The Concept 139
8.2.2 Field Confirmation 141
8.3 Field Trials for Dose Efficacy Measurements 142
8.4 Aircraft Navigation and Data Logging 145
8.5 Investigating Possible Improvements in Application Methods with PKBW 148
8.5.1 Utilization and Drift of a Phytotoxic Herbicide 148
8.5.2 "Smart " Formulations 153

CHAPTER 9 PESTICIDES AND GOVERNMENT REGULATIONS

9.1 Introduction 156
9.2 Federal and Provincial Regulations in Canada 157
9.3 Specific Excerpts from FIFRA 170
9.4 The Training of Pesticide Applicators and the Inspection of Application Equipment 172

Appendix I SPRAY EFFICACY RESEARCH GROUP (SERG) 176

Appendix II ATOMIZER CHARACTERIZATION DATA 178

Appendix III DETAILS OF AGDISP, FSCBG, AND PKBW MODELS 206

Index 209
