Intense Atmospheric Vortices

Proceedings of the Joint Symposium (IUTAM/IUGG)
held at Reading (United Kingdom) July 14-17, 1981

Edited by
L. Bengtsson and J. Lighthill

With 195 Figures

Springer-Verlag
Berlin Heidelberg New York 1982

TROPICAL CYCLONES

Tropical Cyclone Genesis and Intensification W.M. Gray (With 15 Figures)	3
On Basic Problems in Theory and Modeling of the Tropical Cyclone K.V. Ooyama (With 3 Figures)	21
On the Structure of Hurricanes as Revealed by Research Aircraft Data R.C. Sheets (With 17 Figures)	35
Lagrangian Angular Momentum Transports in Tropical Cyclones G.J. Holland (With 5 Figures)	51
Numerical Analyses on the Activities of Intense Atmospheric Vortices (Typhoons) Over China Du Xing-yuan and Zhou Zi-Dong (With 7 Figures)	61
Influence of Environmental Conditions on the Genesis of a Tropical Storm Y. Kurihara and R.E. Tuleya (With 3 Figures)	71
Model Development of Atlantic Hurricanes from Prehurricane Cloud Clusters, Depressions and Cyclones R.L. Pfeffer and M. Challa (With 8 Figures)	81
The Numerical Experiment on the Contribution of Landed Typhoon to the Rainfall in North China Xie An and Xiao Wen-jun (With 11 Figures)	95
Estimation of Radial Distribution of Eddy Viscosity in a Mature Hurricane D.R. Davies and H.P. Evans (With 1 Figure)	105
Spontaneously Growing Hurricanelike Disturbances in a Simple Baroclinic Model with Latent Heat Release A.E. Gill (With 5 Figures) (Appendix by J.M. Smith, with 1 Figure)	111
The Factors Determining Radial Flow and Eye Formation in an Intensifying Tropical Cyclone R.P. Pearce (With 6 Figures)	131

TORNADOES

The Development and Maintenance of Rotation in Convective Storms D.K. Lilly (With 5 Figures)	149
Cumulus Rotation: Model and Observations of a Waterspout-Bearing Cloud System J. Simpson (With 11 Figures)	161
Observational and Theoretical Aspects of Tornadogenesis R.P. Davies-Jones (With 4 Figures)	175
High Resolution Numerical Simulations of the Tornadic Region Within a Mature Thunderstorm J.B. Klemp and R. Rotunno (With 8 Figures)	191
Numerical Studies of Tornado Structure and Genesis L.M. Leslie and R.K. Smith (With 5 Figures)	205
A Numerical Simulation of Multiple Vortices R. Rotunno (With 9 Figures)	215
The Laboratory Modelling of Atmospheric Vortices: a Critical Review T. Maxworthy (With 16 Figures)	229
Vortex Breakdown and the Criterion for its Occurrence M.P. Escudier (With 8 Figures)	247
Pressure Fields Beneath Tornado-like Vortices J.T. Snow (With 5 Figures)	259
Convection and Mixing at High Rossby Numbers in Rotating Systems A.D. McEwan (With 9 Figures)	271
Intense Vortex Generation by Turbulence in a Rotating Fluid E.J. Hopfinger and F.K. Browand (With 9 Figures)	285
Laboratory Models of Tornado-like Vortices B.A. Lugovtsov (With 17 Figures)	299
High Vorticity Regions in Rotating Thermally Driven Flows R. Hide (With 7 Figures)	313
