## Convective Transport and Instability Phenomena

G. Braun Karlsruhe

# CONVECTIVE TRANSPORT AND INSTABILITY PHENOMENA

edited by

Dr.-Ing. Jürgen Zierep

o. Professor für Strömungslehre

Institut für Strömungslehre und Strömungsmaschinen

Universität (TH) Karlsruhe

Dr.-Ing.habil. Herbert Oertel jr.

Privatdozent für Strömungslehre

Institut für Theoretische Strömungsmechanik

DFVLR - AVA, Göttingen

with 273 Figures

## CONTENTS

|         |   |     |
|---------|---|-----|
| PART 1. | RAYLEIGH-BÉNARD CONVECTION .....  | 1   |
| 1.1     | Basic Phenomena and Analogies .....   | 3   |
| 1.1.1   | Thermal Instabilities   |     |
|         | H. OERTEL jr. ....  | 3   |
| 1.1.2   | Analogies between Thermal and Viscous Instabilities                         |     |
|         | J. ZIEREP .....   | 25  |
| 1.1.3   | Rayleigh-Bénard Convection and Taylor Vortex Flow                           |     |
|         | E. L. KOSCHMIEDER .....   | 39  |
| 1.1.4   | The Dependence of the Critical Rayleigh Number on<br>the Prandtl Number     |     |
|         | P. CHAO, S.W. CHURCHILL, H. OZOE .....                                      | 55  |
| 1.2     | Gaps and Cavities, Oscillatory Convection and Turbulence .                  | 71  |
| 1.2.1   | Bénard Convection in Gaps and Cavities                                      |     |
|         | U. MÜLLER .....   | 71  |
| 1.2.2   | Time-Dependent Convection   |     |
|         | K. R. KIRCHARTZ, H. OERTEL jr., J. ZIEREP .....                             | 101 |
| 1.2.3   | Approach to Rayleigh Bénard Turbulent Convection<br>in Different Geometries |     |
|         | P. BERGE, M. DUBOIS, V. CROQUETTE .....                                     | 123 |
| 1.2.4   | Transition to Turbulence in Thermal Convection                              |     |
|         | F. H. BUSSE .....   | 149 |
| 1.3     | Diffusive Instabilities and Porous Media .....                              | 171 |
| 1.3.1   | Double-Diffusive Convection   |     |
|         | P. F. LINDEN .....  | 171 |
| 1.3.2   | Convection in a Porous Medium   |     |
|         | J. P. CALTAGIRONE .....   | 199 |

|   |     |
|---|-----|
| PART 2. MARANGONI CONVECTION AND REACTIVE SYSTEMS .....                           | 233 |
| 2.1 Marangoni Instabilities .....   | 235 |
| 2.1.1 Transport and Reactive Phenomena leading to<br>Interfacial Instability      |     |
| M. G. VELARDE, J. L. CASTILLO .....   | 235 |
| 2.1.2 Marangoni Instabilities   |     |
| H. LINDE .....  | 265 |
| 2.1.3 Marangoni Convection in Floating Zones                                      |     |
| C. H. CHUN, D. SCHWABE .....  | 297 |
| 2.2 Reactive Systems .....  | 319 |
| 2.2.1 New Hydrodynamic Interfacial Instabilities Related<br>to Chemical Reactions |     |
| E. NAKACHE, M. DUPEYRAT .....   | 319 |
| 2.2.2 Interfacial Instabilities in Surfactant Systems                             |     |
| T. S. SØRENSEN .....  | 339 |
| 2.3 Combustion .....  | 371 |
| 2.3.1 Transport and Instability Phenomena in Non-<br>premixed Combustion          |     |
| N. PETERS .....   | 371 |
| 2.3.2 Turbulent Transport in Premixed Flames                                      |     |
| K. N. C. BRAY, J. B. MOSS, P. A. LIBBY .....                                      | 389 |
| PART 3. CRYSTAL GROWTH AND SOLIDIFICATION .....                                   | 425 |
| 3.1 Crystal Growth .....  | 427 |
| 3.1.1 Convection in Crystal Growth  |     |
| S. OSTRACH .....  | 427 |

|  |     |
|--|-----|
| 3.1.2 Convection in Melts and Crystal Growth   |     |
| G. MÜLLER .....  | 441 |
| 3.1.3 Convection in Vapor Crystal Growth Ampoules                                    |     |
| F. ROSENBERGER .....   | 469 |
| 3.1.4 The Role of Hydrodynamics in Crystal Growth from<br>High-Temperature Solutions |     |
| H. J. SCHEEL, E. O. SCHULZ-DUBOIS .....  | 491 |
| 3.2 Solidification .....   | 515 |
| 3.2.1 The Role of Convection in Solidification                                       |     |
| P. R. SAHM .....   | 515 |
| 3.2.2 Convective Heat Transfer during Dendritic Growth                               |     |
| M. E. GLICKSMAN, S. C. HUANG .....   | 557 |
| SUBJECT INDEX .....  | 575 |
