THE UPPER ATMOSPHERE

Meteorology and Physics

BY
RICHARD A. CRAIG

DEPARTMENT OF METEOROLOGY
THE FLORIDA STATE UNIVERSITY
TALLAHASSEE, FLORIDA

1965

ACADEMIC PRESS New York and London

Contents

PREFACE

v

Chapter 1. INTRODUCTION

1.1 Variables Describing Structure and Composition	2
1.2 The Composition of Air and Some Standard Atmospheres	7
1.3 Nomenclature	10
1.4 Scope and Plan of this Book	12
References	15

Chapter 2. METEOROLOGICAL CONDITIONS IN THE LOWER STRATOSPHERE

2.1 Balloon Sounding Systems	17
2.2 The Tropopause	23
2.3 Composition of the Lower Stratosphere—Water Vapor and Dust	33
2.4 Climatology of the Lower Stratosphere	41
2.5 The Disturbed Circulation of the Lower Stratosphere	53
References	61

Chapter 3. STRUCTURE AND CIRCULATION OF THE UPPER STRATOSPHERE AND THE MESOSPHERE

3.1 Large-Scale Features of the Wind and Temperature Variations	66
3.2 Ground-Based Measurements	68
3.3 Rocket Measurements	82
3.4 Frequent Measurements with Balloons and Meteorological Rockets	102
3.5 Summary and Discussion	108
References	114

Chapter 4. THE SUN'S RADIATION AND THE UPPER ATMOSPHERE

4.1 Some Applicable Aspects of Spectroscopy and Quantum Mechanics	120
4.2 Energy Exchange by Collision	138
4.3 Black-Body Radiation and Some Simple Aspects of Radiative Transfer	141
4.4 Absorption of Solar Radiation by an Exponential Atmosphere	147

4.5	The Sun and Its Ultraviolet Radiation	150
4.6	Absorption by the Upper Atmosphere	161
	References	172

Chapter 5. COMPOSITION OF THE STRATOSPHERE AND MESOSPHERE; ATMOSPHERIC OZONE

5.1	Observations of the Total Amount of Ozone	177
5.2	Observations of the Vertical Distribution of Ozone	183
5.3	Photochemical Processes Affecting Ozone	200
5.4	Meteorological Processes Affecting Ozone	208
5.5	Composition of the Mesosphere	217
5.6	Noctilucent Clouds	225
	References	227

Chapter 6. COMPOSITION AND STRUCTURE OF THE THERMOSPHERE

6.1	Photochemical Processes in the Thermosphere	235
6.2	Diffusion in the Thermosphere	240
6.3	Composition Measurements	248
6.4	Structure Measurements	254
6.5	Structure of the Thermosphere	266
	References	274

Chapter 7. RADIATIVE PROCESSES AND HEAT TRANSFER

7.1	Infrared Transfer in the Atmosphere	279
7.2	Heat Transfer in the Upper Mesosphere and Lower Thermosphere	296
7.3	Heat Conduction and Thermospheric Models	305
	References	313

Chapter 8. ATMOSPHERIC TIDES AND WINDS IN THE LOWER THERMOSPHERE

8.1	Observation and Theory of Atmospheric Tides	317
8.2	Measurements of Tidal Winds in the Lower Thermosphere	342
8.3	Irregular, Small-Scale Wind Variations in the Lower Thermosphere	351
	References	359

Chapter 9. AN INTRODUCTION TO SOME OTHER AERONOMIC PROBLEMS

9.1	An Introduction to the Earth's Magnetic Field and Its Variations	362
9.2	An Introduction to the Ionosphere	382
9.3	An Introduction to the Airglow and Aurora	412
	References	434

<i>Chapter 10.</i>	THE TRANSPORT OF PROPERTIES IN THE UPPER ATMOSPHERE	
10.1	Transport through the Tropopause	442
10.2	Meridional and Vertical Transport in the Stratosphere	443
10.3	Transport in the Mesosphere	447
	References	448
<i>Appendix A.</i>	SOME USEFUL CONSTANTS	450
<i>Appendix B.</i>	ADDITIONAL COMMENTS ON SPECTROSCOPY AND QUANTUM MECHANICS	
B.1	The Schrödinger Wave Equation	451
B.2	Electron Quantum Numbers	453
B.3	Term Symbols for Atoms	453
B.4	The Helium Spectrum	454
B.5	Electronic Quantum Numbers for Molecules	455
<i>Appendix C.</i>	COMMENTS ON RADIATION NOMENCLATURE	456
	References	458
<i>Appendix D.</i>	ABSORPTION BY AN EXPONENTIAL ATMOSPHERE; GRAZING INCIDENCE	459
	References	461
<i>Appendix E.</i>	THE GÖTZ UMKEHR METHOD; BASIC EQUATION	462
<i>Appendix F.</i>	LARGE-SCALE TRANSPORT OF ATMOSPHERIC PROPERTIES	465
<i>Appendix G.</i>	SOME EARLY STUDIES OF RADIATIVE EFFECTS ON THERMAL STRUCTURE	467
	References	468
<i>Appendix H.</i>	THERMAL EQUILIBRIUM AND THE UPPER ATMOSPHERE	469

<i>Appendix I.</i>	HARMONIC ANALYSIS AND SIGNIFICANCE CRITERIA	470
Reference		473
<i>Appendix J.</i>	LEGENDRE FUNCTIONS AND SPHERICAL HARMONICS	474
References		476
<i>Appendix K.</i>	THE PERTURBATION EQUATIONS	477
Reference		480
<i>Appendix L.</i>	AN EARLY ACCOUNT OF AN AURORAL DISPLAY	481
Reference		482
<i>Appendix M.</i>	GLOSSARY OF SYMBOLS	483
AUTHOR INDEX		487
SUBJECT INDEX		495
