## CONTENTS

SOME PROBLEMS RELATING TO THE OBSERVED CHARACTERISTICS OF GRAVITY WAVES IN THE MIDDLE ATMOSPHERE I. Hirota	1
GRAVITY-WAVE PARAMETERS IN THE LOWER STRATOSPHERE R.A. Vincent, S.J. Allen and S.D. Eckermann	7
MEASUREMENTS OF INTERMITTENCY IN THE UPPER STRATOSPHERE AND MESOSPHERE R.J. Sica and M.D. Thorsley	27
CLIMATOLOGY AND HYDRODYNAMIC SOURCES OF INTERNAL GRAVITY WAVES IN THE MIDDLE AND UPPER ATMOSPHERE N.M. Gavrilov	45
OBSERVATIONAL STUDIES OF GRAVITY WAVES ASSOCIATED WITH CONVECTION K. Sato	63
EXPERIMENTAL CONSTRAINTS ON GRAVITY WAVE PARAMETERIZATION FROM IN SITU MEASUREMENTS OF TEMPERATURE AND TURBULENCE F.-J. Lübken	69
ANALYSIS OF INTERMITTENCY IN AIRCRAFT MEASUREMENTS OF VELOCITY, TEMPERATURE AND ATMOSPHERIC TRACERS USING WAVELET TRANSFORMS J.T. Bacmeister, S.D. Eckermann, L. Sparling, K.R. Chan, M. Loewenstein and M.H. Proffitt	85
OBSERVATIONS OF GRAVITY WAVES WITH THE UARS MICROWAVE LIMB SOUNDER D.L. Wu and J.W. Waters	103
MAINTENANCE OF THE TROPICAL OSCILLATIONS OF ZONAL-MEAN WINDS IN THE MIDDLE ATMOSPHERE BY CONVECTIVELY-FORCED GRAVITY WAVES F. Sassi and R.R. Garcia	121
NUMERICAL MODELLING OF INERTIA-GRAVITY WAVE EMISSION BY FRONTS AND JETS M.J. Reeder and M. Griffiths	137
A MODEL OF NON-STATIONARY GRAVITY WAVES IN THE STRATOSPHERE AND COMPARISON TO OBSERVATIONS M.J. Alexander	153
THE PROPAGATION AND BREAKING OF GRAVITY WAVES EXCITED BY FORCING IN THE TROPOSPHERE R.R. Garcia and J.M. Prusa	169
ESTIMATE OF ATMOSPHERIC DISSIPATION DERIVED FROM UARS/HRDI MEASUREMENTS V.A. Yudin, M.A. Geller and B.V. Khattatov	187

ON THE NONLINEAR INTERACTIONS BETWEEN GRAVITY WAVES IN SHEAR FLOWS J. Vanneste and F. Vial	199
GRAVITY WAVE SPECTRAL MODELS AND THE SHAPES OF GRAVITY WAVE SPECTRA AT LOW VERTICAL WAVENUMBERS C.D. Warner and M.E. McIntyre	217
NONLINEARITY OF THE SATURATION SPECTRUM C.O. Hines	227
SENSITIVITY STUDIES USING THE HINES AND FRITTS GRAVITY WAVE DRAG PARAMETERIZATIONS C. McLandress	245
MODELING THE SEASONAL CYCLES AND EQUATORIAL OSCILLATIONS WITH A PARAMETERIZATION OF THE DOPPLER SPREAD GRAVITY WAVE THEORY H.G. Mayr, J.G. Mengel, C.O. Hines, K.L. Chan and N.F. Arnold	257
THE REPRESENTATION OF SUB-GRID SCALE OROGRAPHY IN GCMs F. Lott and M. Miller	275
THE EFFECT OF PARAMETERIZED GRAVITY WAVE DRAG ON SIMULATIONS OF THE MIDDLE ATMOSPHERE DURING NORTHERN WINTER 1991/1992 - GENERAL EVOLUTION B.N. Lawrence	291
THE PARAMETERIZATION OF GRAVITY WAVE DRAG BASED ON THE NONLINEAR DIFFUSION OF WAVE SPECTRA A.S. Medvedev, G.P. Klaassen and B.A. Boville	309
EFFECTS OF GRAVITY WAVE DRAG IN THE BERLIN TROPOSPHERE-STRATOSPHERE-MESOSPHERE GCM S. Pawson	327
THE ROLE OF PARAMETERIZED DRAG IN A TROPOSPHERE-STRATOSPHERE-MESOSPHERE GENERAL CIRCULATION MODEL K. Hamilton	337
SEASONAL SIMULATIONS WITH THE CANADIAN MIDDLE ATMOSPHERE MODEL: SENSITIVITY TO A COMBINATION OF OROGRAPHIC AND DOPPLER SPREAD PARAMETERIZATIONS OF GRAVITY WAVE DRAG N.A. McFarlane, C. McLandress and S. Beagley	351
MIDDLE ATMOSPHERE SIMULATIONS WITH THE ECHAM4 MODEL: SENSITIVITY TO THE DOPPLER SPREAD GRAVITY WAVE PARAMETERIZATION E. Manzini, N.A. McFarlane and C. McLandress	367
THE MESOSPHERE IN THE EXTENDED UGAMP GCM W.A. Norton and J. Thurn	383
