

THE HURRICANE

Roger A. Pielke

London and New York

Contents

| | |
|--|-----------|
| List of figures | vi |
| List of tables | ix |
| Preface | x |
| Introduction | 1 |
| 1 Geographic and seasonal distribution | 5 |
| <i>Origin</i> | 6 |
| <i>Movement</i> | 8 |
| <i>Relation of tropical cyclones to the general circulation of the earth</i> | 11 |
| <i>Tropical cyclone development criteria</i> | 25 |
| 2 Mechanisms of formation and development | 32 |
| <i>Tropical cyclone formation</i> | 32 |
| <i>Tropical cyclone intensification</i> | 34 |
| 3 Controls on tropical cyclone movement | 48 |
| <i>External flow</i> | 48 |
| <i>Interaction of the steering current and the hurricane</i> | 50 |
| <i>Internal flow</i> | 55 |
| 4 Impacts | 58 |
| <i>Ocean impacts</i> | 58 |
| <i>Land impacts</i> | 59 |
| 5 Tropical cyclone tracks | 88 |
| <i>Tropical cyclone track predictions</i> | 89 |
| <i>Tropical cyclone intensity change predictions</i> | 91 |
| <i>Tropical cyclone-related public forecasts</i> | 91 |
| <i>Seasonal predictions of tropical cyclone activity</i> | 96 |
| <i>Attempts at tropical cyclone modification</i> | 97 |
| Appendix A: Atlantic tropical hurricane tracks, 1871–1989 | 101 |
| Appendix B: Atlantic tropical cyclone track map | 220 |
| References | 223 |
| Further reading | 226 |
| Index | 227 |
