WORLD METEOROLOGICAL ORGANIZATION

1956

TABLE OF CONTENTS

| | Pages |
|--|-------|
| Preface to the 1939 edition | IX |
| Preface to the present edition | XV |

PART I — CLOUDS

CHAPTER I

Introduction

| | |
|---|---|
| 1. Definition of a cloud | 3 |
| 2. Appearance of clouds | 3 |
| (1) Luminance | 3 |
| (2) Colour | 4 |
| 3. Classification of clouds | 5 |
| (1) Genera | 5 |
| (2) Species | 5 |
| (3) Varieties | 5 |
| (4) Supplementary features and accessory clouds | 6 |
| (5) Mother-clouds | 6 |
| 4. Table of classification of clouds | 7 |
| 5. Table of abbreviations and symbols of clouds | 8 |

CHAPTER II

Definitions

| | |
|---|----|
| 1. Some useful concepts | 9 |
| (1) Height, altitude, vertical extent | 9 |
| (2) Etages | 9 |
| 2. Observational conditions to which definitions of clouds apply. | 10 |
| 3. Definitions of clouds | 10 |
| (1) Genera | 10 |
| (2) Species | 11 |
| (3) Varieties | 14 |
| (4) Supplementary features and accessory clouds | 16 |

CHAPTER III

Descriptions of clouds

| | |
|---------------------------|----|
| 1. Cirrus | 19 |
| 2. Cirrocumulus | 21 |
| 3. Cirrostratus | 23 |
| 4. Altocumulus | 25 |
| 5. Altostratus | 28 |
| 6. Nimbostratus | 30 |

| | Pages |
|----------------------------|-------|
| 7. Stratocumulus | 32 |
| 8. Stratus | 35 |
| 9. Cumulus | 37 |
| 10. Cumulonimbus | 40 |

CHAPTER IV

Orographic influences

| | |
|--|----|
| 1. Occurrence, structure and shapes of orographic clouds | 43 |
| 2. Changes in the shape and structure of clouds due to orographic influences | 44 |

CHAPTER V

Clouds as seen from aircraft

| | |
|--|----|
| 1. Special problems involved | 45 |
| (1) Differences between the observation of clouds from aircraft and from the earth's surface | 45 |
| (2) Field of vision | 45 |
| (3) Appearance of clouds | 45 |
| (4) Icing | 46 |
| (5) Turbulence in clouds and in their vicinity | 46 |
| (6) Visibility in clouds | 46 |
| (7) Photometers associated with clouds | 47 |
| 2. Descriptions of clouds as observed from aircraft. | 47 |
| (1) Cirrus | 47 |
| (2) Cirrocumulus. | 47 |
| (3) Cirrostratus | 47 |
| (4) Altopumulus | 48 |
| (5) Altostratus. | 49 |
| (6) Nimbostratus. | 50 |
| (7) Stratocumulus | 51 |
| (8) Stratus | 52 |
| (9) Cumulus. | 52 |
| (10) Cumulonimbus | 53 |
| 3. Fog and haze as seen from aircraft | 54 |
| (1) Fog | 54 |
| (2) Haze aloft | 54 |

CHAPTER VI

Special clouds

| | |
|--|----|
| 1. Nacreous clouds | 56 |
| 2. Noctilucent clouds | 56 |
| 3. Condensation trails (contrails) | 57 |

| | Pages |
|---|-------|
| 4. Clouds from waterfalls | 57 |
| 5. Clouds from fires | 58 |
| 6. Clouds from volcanic eruptions | 58 |
| 7. Clouds resulting from industry | 58 |
| 8. Clouds resulting from explosions | 58 |

PART II — METEORS

CHAPTER I

Introduction

| | |
|--|----|
| 1. Definition of a meteor | 61 |
| 2. Classification of meteors | 61 |
| (1) Hydrometeors | 61 |
| (2) Lithometeors | 62 |
| (3) Photometeors | 63 |
| (4) Electrometeors | 63 |
| 3. Symbols of meteors | 63 |

CHAPTER II

Definitions and descriptions of meteors

| | |
|---|----|
| 1. Hydrometeors | 66 |
| (1) Rain | 66 |
| (2) Drizzle | 66 |
| (3) Snow | 66 |
| (4) Snow pellets | 66 |
| (5) Snow grains | 67 |
| (6) Ice pellets | 67 |
| (7) Hail | 67 |
| (8) Ice prisms | 67 |
| (9) Fog | 67 |
| (10) Mist | 68 |
| (11) Drifting snow and blowing snow | 68 |
| (12) Spray | 68 |
| (13) Dew | 69 |
| (14) Hoar-frost | 69 |
| (15) Rime | 69 |
| (16) Glaze (clear ice) | 69 |
| (17) Spout | 70 |
| 2. Lithometeors | 70 |
| (1) Haze | 70 |
| (2) Dust haze | 70 |
| (3) Smoke | 70 |

| | Pages |
|---|-------|
| (4) Drifting and blowing dust or sand | 71 |
| (5) Dust storm or sandstorm | 71 |
| (6) Dust whirl or sand whirl (dust devil) | 71 |
| 3. Photometers | 71 |
| (1) Halo phenomena | 71 |
| (2) Corona | 72 |
| (3) Irisation | 73 |
| (4) Glory | 73 |
| (5) Rainbow | 73 |
| (6) Bishop's ring | 74 |
| (7) Mirage | 74 |
| (8) Shimmer | 74 |
| (9) Scintillation | 74 |
| (10) Green flash | 75 |
| (11) Twilight colours | 75 |
| 4. Electrometers | 76 |
| (1) Thunderstorm | 76 |
| (2) Saint Elmo's fire | 76 |
| (3) Polar aurora | 77 |

PART III — OBSERVATION OF CLOUDS AND METEORS FROM THE EARTH'S SURFACE

CHAPTER I

Observation of clouds

| | |
|---|----|
| 1. Introduction | 81 |
| 2. Identification of clouds | 81 |
| (1) Identifying the genus | 82 |
| (2) Identifying the species | 83 |
| (3) Identifying the varieties | 84 |
| (4) Identifying the supplementary features and the accessory clouds | 84 |
| (5) Determining the mother-cloud | 84 |
| (6) Identifying meteors associated with the clouds | 84 |
| 3. Total cloud cover and cloud amount | 84 |
| 4. Height and altitude | 85 |
| 5. Direction and speed of movement | 85 |
| 6. Optical thickness | 85 |
| 7. Observations of clouds made from mountain stations | 86 |
| 8. Observation of special clouds | 86 |
| (1) Nacreous and noctilucent clouds | 86 |
| (2) Other special clouds | 86 |

TABLE OF CONTENTS

VII

Pages

CHAPTER II

Observation of meteors

| | |
|--|----|
| 1. Introduction | 87 |
| 2. Observation of hydrometeors. | 87 |
| 3. Observation of lithometeors | 87 |
| 4. Observation of photometeors | 87 |
| 5. Observation of electrometeors | 88 |

PART IV — JOURNAL OF CLOUDS AND METEORS

CHAPTER I

First model for a journal of clouds and meteors

| | |
|---|----|
| 1. Arrangement of the journal | 91 |
| 2. Instructions for entering observations in the journal | 91 |
| 3. Example of arrangement of the observations in the journal. | 94 |

CHAPTER II

Second model for a journal of clouds and meteors

| | |
|---|----|
| 1. Arrangement of the journal | 97 |
| 2. Instructions for entering observations in the journal | 97 |
| 3. Example of arrangement of the observations in the journal. | 99 |

PART V — THE CODING OF CLOUDS IN THE CODES C_L , C_M AND C_H

CHAPTER I

Introduction to the coding of clouds

105

CHAPTER II

Code specifications and coding procedures

| | |
|---|-----|
| 1. C_L -clouds of the genera Stratocumulus, Stratus, Cumulus and Cumulonimbus | 106 |
| 2. C_M -clouds of the genera Altopcumulus, Altostratus and Nimbostratus | 113 |
| 3. C_H -clouds of the genera Cirrus, Cirrocumulus and Cirrostratus | 120 |

CHAPTER III

Pictorial guides for the coding of clouds in the codes C_L , C_M and C_H

| | |
|--|-----|
| 1. Description and procedure. | 127 |
| 2. Pictorial guide for the coding of C_L -clouds | 128 |
| 3. Pictorial guide for the coding of C_M -clouds | 129 |
| 4. Pictorial guide for the coding of C_H -clouds | 130 |

CHAPTER IV

| | |
|---|------------|
| Symbols for clouds corresponding to the figures of the C_L, C_M and C_H codes | 131 |
|---|------------|

Appendices

| | |
|---|------------|
| Appendix I — Etymology of Latin names of clouds. | 135 |
| Appendix II — Historical bibliography of cloud classification | 137 |
| Appendix III — Bibliography of cloud nomenclature | 140 |
| Alphabetical index of words and expressions | 147 |
