PREFACE	7	The Intensity of a Storm System	
1 SKYWATCHING	11	The Multicell Storm	
Wisdom in the Wind		The Supercell	
Sky-Smarts		The Squall Line	
Reclaiming our Heritage		Other Types of Severe Events	
Metamorphosis		Storm Arrangement	
Standing at the Dawn		Storm-Scale Air Motions and Features	
2 EARTHWATCHING	15	Overview	
Eyes in the Sky		Inflow Features	
A Remote Island		Rotation and the Tornado	
A Robe of Waves		Outflow Features	
Arctic Wastes		Mamma	
Coastal Whirls		7 EYES IN SPACE	129
Fossil Clouds		The New Observations	
The Rotating Earth		The Orbits	
Dust and Glint		How the Picture is Built Up	
A Broader View		What the Pictures Tell Us	
3 STARTING POINTS	23	Visibility Problems	
Moist – Relatively and Absolutely		Airmasses	
Going Up and Down		Fronts	
Basics		Cyclones	
Convection Clouds		Anticyclones	
Frontal Clouds		8 SONIC AND GRAVITY WAVES	141
Alto Clouds		The Sonic Wave	
Ice Clouds		The Convection Wave	
4 CUMULUS	39	Internal Gravity Waves	
Origins		Reflected Mountain Waves	
Effects of other Atmospheric Conditions		9 MOUNTAIN WAVES	146
New and Old Clouds		Gravity Waves	
Arrangement of Cloud Elements		Wave Dispersion	
Large Cumulus		Lee Waves	
Pileus: The Elusive ‘Cap’ Cloud		Föhn Winds, Föhn Cirrus and Mountain Wave Cirrus	
5 CUMULONIMBUS	55	10 ON REFLECTION	156
Structural Features		Calm	
Typical Life Cycle		Sub-Suns and Pillars	
Cumulonimbus Types		Intense Scatter	
Winter Convection		11 LIGHT WORK	159
6 SEVERE WEATHER AND THE STORM ENVIRONMENT	73	Rainbows and Cloud Bows	
Storm Types and Organisation		Halos – Refraction in Ice Crystals	
		Brightly Coloured Arcs	

<p>12 FOGS AND TRAILS  Fog is Beautiful  Radiation Fog  Steaming Fog  Contrails  Transforming Sea Fog  Ship Trails</p> <p>13 HABOOB EFFECTS IN THE  ATMOSPHERE</p> <p>APPENDIX  The Physical Nature of Clouds  Large Drops, Small Droplets  Cloud Density and Droplet Sizes</p>	<p>165</p> <p>177</p> <p>184</p>	<p>Scattering of Sunshine  Growth of Drizzle and Rain  Freezing of Droplets  Rain from Ice Crystals  Fallstreaks  Enduring Cirrus  Radiation and Layer Clouds  Effect of Sunshine on Clouds  Earth Radiation  The Blue Planet</p> <p>ACKNOWLEDGEMENTS</p> <p>INDEX</p>	<p>189</p> <p>190</p>
