TABLE OF CONTENTS

| | Page |
|---|------|
| Summary | iii |
| Table of Contents | v |
| List of Tables | vii |
| List of Figures | ix |
| Conversion Factors | xi |
| Climatological Nomenclature | xii |
| PART I - <u>CALCULATION OF CROP WATER REQUIREMENTS</u> | |
| 1. CALCULATION OF REFERENCE CROP EVAPOTRANSPIRATION | 3 |
| 1.1 Blaney-Criddle Method | 3 |
| 1.2 Radiation Method | 8 |
| 1.3 Penman Method | 15 |
| 1.4 Pan Evaporation Method | 30 |
| 2. SELECTION OF CROP COEFFICIENT | 35 |
| 3. FACTORS AFFECTING CROP EVAPOTRANSPIRATION | 55 |
| 3.1 Climate: variation with time, distance, size of irrigation development, advection, altitude | 55 |
| 3.2 Soil Water: level of available soil water, groundwater, salinity, water and crop yields | 59 |
| 3.3 Method of irrigation: surface, sprinkler, drip or trickle, sub-surface irrigation | 62 |
| 3.4 Cultural Practices: fertilizers, plant population, tillage, mulching, windbreaks, anti-transpirants | 65 |
| PART II - <u>APPLICATION OF CROP WATER REQUIREMENT DATA IN IDENTIFICATION, DESIGN AND OPERATION OF IRRIGATION PROJECTS</u> | |
| 1. PROJECT IDENTIFICATION AND PRELIMINARY PLANNING | 68 |
| 1.1 Introduction | 68 |
| 1.2 Seasonal and Peak Project Supply Requirements | 69 |
| 1.2.1 Crop water requirements | 71 |
| 1.2.2 Net irrigation requirements: effective rainfall, groundwater contribution, stored soil water | 72 |
| 1.2.3 Irrigation requirements: leaching requirements, irrigation efficiency | 76 |
| 1.2.4 Summary of calculation of seasonal and peak project supply requirements | 81 |
| 2. PROJECT DESIGN | 83 |
| 2.1 Introduction | 83 |
| 2.2 Field and Project Supply Schedules | 83 |
| 2.2.1 Field irrigation schedules: depth of irrigation application, irrigation application interval, calculation of field irrigation schedules | 86 |
| 2.2.2 Field irrigation supply schedules: surface, sprinkler drip | 90 |
| 2.2.3 Design and operation of supply system: continuous, rotational, supply on demand | 96 |
| 2.2.4 Summary calculation of project design and operation | 100 |
| 3. PROJECT OPERATION | 102 |
| 3.1 Refinement of Field Supply Schedules: adaptive research, data collection, project monitoring | 102 |
| 3.2 Application of Field Irrigation Data | 104 |
| Appendix I Persons and Institutes Consulted | 107 |
| Appendix II Background and Development of Methods to Predict Reference Crop Evapotranspiration | 108 |
| Appendix III Computer Programme for Estimation of Reference Crop Evapotranspiration | 120 |
| Appendix IV Glossary | 133 |
| Appendix V References | 137 |
| Appendix VI Constants for the Radiation Equation $R_s = (a + b n/N)R_a$ | 144 |
