Table of Contents

Preface	xi
List of Frequently Used Symbols	xiii
E.J. Plate, A.G. Davenport The Risk of Wind Effects in Cities	1
 Section I - Fundamentals of Urban Boundary Layer and Dispersion	
Introduction to section I by E.J. Plate	21
E.J. Plate Urban Climates and Urban Climate Modelling: An Introduction	23
S.P. Arya Atmospheric Boundary Layer and its Parameterization	41
S. Zilitinkevich Scaling for Convective Boundary Layers	67
T.R. Oke The Heat Island of the Urban Boundary Layer: Characteristics, Causes and Effects	81
N. Jerram, R.J. Perkins, J.C.H. Fung, M.J. Davidson, S.E. Belcher, J.C.R. Hunt Atmospheric Flow through Groups of Buildings and Dispersion from Localised Sources	109
N. Isyumov, S. Ramsay Physical Modelling of Atmospheric Dispersion in Complex Settings	131
J.-A. Hertig Analysis of Meteorological Data and Main Problems Related to the Determination of Building Exposure	153

Section II - Forces on Complex Structures in Built-up Areas

Introduction to section II by A.G. Davenport	183
J. Wacker Local Wind Pressures for Rectangular Buildings in Turbulent Boundary Layers.....	185
A.G. Davenport The Response of Slender Structures to Wind.....	209
H. Ruscheweyh Wind Loads on Structures from EUROCODE 1, ENV 1991-2-3.....	241
H. Ruscheweyh Interference Effects on Flexible Buildings and Structures.....	259
H.J. Niemann Wind-induced Response of Buildings Arranged in a Group.....	275
J.-A. Hertig, C. Alexandrou The Influence of Surroundings on Pressure Distributions around Buildings.....	293
N. Isyumov, S. Helliwell, S. Rosen, D. Lai Wind in Cities: Effects on Pedestrians and the Dispersion of Ground Level Pollutants.....	319
H.J. Gerhardt Damage to Buildings by Storms in Urban Areas.....	337

Section III - Air Pollution in Cities

Introduction to section III by J.E. Cermak	351
<u>III.1 Outer-City Flow and Dispersion:</u>	
J.-A. Hertig Urban Climates and Air Pollution in Small Swiss Cities.....	353
J.E. Cermak Physical Modelling of Flow and Dispersion over Urban Areas.....	383

J.Lu, S.P. Arya A Laboratory Simulation of Urban Heat - Island - Induced Circulation in a Stratified Environment.....	405
M. Rau, E.J. Plate Wind Tunnel Modelling of Convective Boundary Layers	431
J.C. Weil Concentration Fluctuations in Plumes: Observations and Models	457
III.2 Inner-City Flow and Dispersion:	
W. Theurer Point Sources in Urban Areas: Modelling of Neutral Gas Clouds with Semi-empirical Models	485
D.A. Quintela, D.X. Viegas Convective Heat Losses from Buildings.....	503
W. Baechlin Traffic Induced Pollution: Diffusion in the Neighbourhood of Tunnels and Streets.....	523
A. Lohmeyer Traffic Induced Pollution: How to Evaluate Wind Tunnel Data for Municipal Decision Makers	535
R. Roeckle, W.-J. Kost, L. Janicke Modelling of Motor Vehicle Immissions in a Street System by Combination of Lagrange Models and Surface Wind Field Simulation in Complex City Structures.....	547
M. Schatzmann Accidental Releases of Heavy Gases in Urban Areas.....	555
S.R. Ramsay Dense Gas Dispersion in Complex Settings: Part 1 - The Effect of Obstacles.....	575
S.R. Ramsay Dense Gas Dispersion in Complex Settings: Part 2 - The Effect of Topography.....	607

Section IV - Numerical Simulation Techniques

Introduction to section IV by D.X. Viegas.....	631
W. Rodi	
Introduction to the Numerical Simulation Approaches in Wind Engineering	633
W. Rodi	
Simulation of Flow past Buildings with Statistical Turbulence Models	649
W. Frank	
Large-Eddy-Simulation of the Three-dimensional Flow around Buildings	669
S. Murakami, A. Mochida, Y. Tominaga	
Numerical Simulation of Turbulent Diffusion in Cities	681
M.E. Nicholls, R.A. Pielke, J.L. Eastman, C.A. Finley, W.A. Lyons, C.J. Tremback, R.L. Walko, W.R. Cotton	
Application of the RAMS Numerical Model to Dispersion over Urban Areas.....	703

Section V - Posters

Y.Q. Zhang, S.P. Arya, W.H. Snyder	
Simulating the Effects of Stable Stratification on Flow and Dispersion around a Cubical Building.....	735
U. Niemeier, H. Schluenzen	
Numerical Simulation of Steep Terrain Influences on Flow Patterns at the Isle of Helgoland	737
S.Emeis, S.Frandsen	
Reduction of Horizontal Wind Speed in a Boundary Layer with Obstacles.....	739
A.M. Yaglom	
Dependence of Scaling for a Convective Atmospheric Surface Layer on Size of Turbulent Disturbances.....	741
P.P. Sarkar, D.A. Smith	
Wind Research Climate at Texas Tech University - An Overview.....	747

S. Rafailidis, J. Ganoulis, Y. Krestenitis, I. Valioulis Automatic Linking of Three-dimensional Models with Different Grid Granularity	749
H.D. Kambezidis An IBL Experiment over Athens Urban Area	751
D.A. Smith, K.C. Metha Wind Resistance Categorization of Buildings	753
R. Richiardone, G. Brusasca Numerical Experiments on Urban Heat-Island Intensity	755
G. Abbate PBL Observations and Measurements in the Area of Rome	757
Subject Index	759
List of Contributors	765
