CLIMATOLOGY AND THE WORLD'S CLIMATES

THE MACMILLAN COMPANY, NEW YORK
COLLIER-MACMILLAN LIMITED, LONDON

contents

Chapter	1	Introduction	1
	2	The Atmosphere	8
	3	Atmospheric Relationships and Processes	28
	4	The General Circulation of the Atmosphere	40
	5	Air Masses, Fronts, and Storms	64
	6	World Climatic Patterns and Modifying Influences	89
	7	The Classification of Climates	103
	8	The Polar Ice Cap	112
	9	The Tundra	139
	10	The Boreal Forest	156
	11	Mid-Latitude Forests of North America	185
	12	Mid-Latitude Forests of Eurasia	212
	13	Mediterranean Scrub Woodland in the Northern Hemisphere	238
	14	Mid-Latitude Forest and Woodland Climates of South America and Southern Africa	272
	15	Mid-Latitude Forest and Woodland in Australia and New Zealand	308
	16	Mid-Latitude Grasslands North of the Equator	342

17	Mid-Latitude Grasslands South of the Equator	375
18	Deserts in North America, South America, and Southern Africa	395
19	Deserts of Australia, Northern Africa, and Asia	426
20	Tropical Forests and Woodlands	465
21	Tropical Forests and Woodlands in the Western Hemisphere	489
22	Tropical Forests and Woodlands in Africa	528
23	Tropical Forests and Woodlands in Southern Asia, the East Indies, and Australia	560
24	Mountain Climates and Oceanic Climates	603
	<i>Index</i>	643
