Contents

- List of contributors viii
Preface xiii
- Chapter 1 Predictability of weather and climate: from theory to practice 1**
T. N. Palmer
- Chapter 2 Predictability from a dynamical meteorological perspective 30**
Brian Hoskins
- Chapter 3 Predictability – a problem partly solved 40**
Edward N. Lorenz
- Chapter 4 The Liouville equation and atmospheric predictability 59**
Martin Ehrendorfer
- Chapter 5 Application of generalised stability theory to deterministic and statistical prediction 99**
Petros J. Ioannou and Brian F. Farrell
- Chapter 6 Ensemble-based atmospheric data assimilation 124**
Thomas M. Hamill
- Chapter 7 Ensemble forecasting and data assimilation: two problems with the same solution? 157**
Eugenia Kalnay, Brian Hunt, Edward Ott and Istvan Szunyogh
- Chapter 8 Approximating optimal state estimation 181**
Brian F. Farrell and Petros J. Ioannou
- Chapter 9 Predictability past, predictability present 217**
Leonard A. Smith

- Chapter 10 Predictability of coupled processes** 251
Axel Timmermann and Fei-Fei Jin
- Chapter 11 Predictability of tropical intraseasonal variability** 275
Duane E. Waliser
- Chapter 12 Predictability of seasonal climate variations: a pedagogical review** 306
J. Shukla and J. L. Kinter III
- Chapter 13 Predictability of the North Atlantic thermohaline circulation** 342
Mojib Latif, Holger Pohlmann and Wonsun Park
- Chapter 14 On the predictability of flow-regime properties on interannual to interdecadal timescales** 365
Franco Molteni, Fred Kucharski and Susanna Corti
- Chapter 15 Model error in weather and climate forecasting** 391
Myles Allen, David Frame, Jamie Kettleborough and David Stainforth
- Chapter 16 Observations, assimilation and the improvement of global weather prediction – some results from operational forecasting and ERA-40** 428
Adrian J. Simmons
- Chapter 17 The ECMWF Ensemble Prediction System** 459
Roberto Buizza
- Chapter 18 Limited-area ensemble forecasting: the COSMO-LEPS system** 489
Stefano Tibaldi, Tiziana Paccagnella, Chiara Marsigli, Andrea Montani and Fabrizio Nerozzi
- Chapter 19 Operational seasonal prediction** 514
David L. T. Anderson
- Chapter 20 Weather and seasonal climate forecasts using the superensemble approach** 532
T. N. Krishnamurti, T. S. V. Vijaya Kumar, Won-Tae Yun, Arun Chakraborty and Lydia Stefanova
- Chapter 21 Predictability and targeted observations** 561
Alan Thorpe and Guðrún Nína Petersen
- Chapter 22 The attributes of forecast systems: a general framework for the evaluation and calibration of weather forecasts** 584
Zoltan Toth, Olivier Talagrand and Yuejian Zhu
- Chapter 23 Predictability from a forecast provider's perspective** 596
Ken Mylne

Chapter 24 Ensemble forecasts: can they provide useful early warnings? 614
François Lalaurette and Gerald van der Grijn

Chapter 25 Predictability and economic value 628
David S. Richardson

Chapter 26 A three-tier overlapping prediction scheme: tools for strategic and tactical decisions in the developing world 645
Peter J. Webster, T. Hopson, C. Hoyos, A. Subbiah, H.-R. Chang and R. Grossman

Chapter 27 DEMETER and the application of seasonal forecasts 674
Renate Hagedorn, Francisco J. Doblas-Reyes and T. N. Palmer

Index 693

The colour plates are situated between pages 364 and 365.
