

JIII 4

Problems in Palaeoclimatology

*Proceedings of the NATO
Palaeoclimates Conference held at
the University of Newcastle upon Tyne
January 7-12, 1963*

Edited by A. E. M. NAIRN

Physics Department, University of Newcastle upon Tyne,
and Geology Department, Western Reserve University,
Cleveland, Ohio

INTERSCIENCE PUBLISHERS
a division of John Wiley & Sons Ltd
London - New York - Sydney

CONTENTS

FOREWORD

PREFACE

<i>Chapter One</i>	Introduction	1
	The Third Confrontation	3
	by W. H. BUCHER	
	Bibliography	8
<i>Chapter Two</i>	The Use of Fossil Plants in Palaeoclimatic Interpretations	11
	The Use of Fossil Plants in Palaeoclimatic Interpretations	13
	by ERLING DORF	
	Quantitation of Sequential Change in North American Ceno- zoic Floras as a Clue to Palaeoclimates	31
	by E. S. BARGHOORN	
	Some Observations on Climatic Relations of Tertiary Floras Bordering the North Pacific Basin	40
	by RALPH W. CHANEY	
	Cretaceous Floras and the Assessment of Past Climates	44
	by N. F. HUGHES	
	Discussion	46
	Bibliography	46
	List of Contributors and Discussants	49
<i>Chapter Three</i>	Evidence of Climate from Coal and Coal Measures	51
	Introduction to the Palaeoclimatic Significance of Coal	53
	by R. KRÄUSEL	
	Palaeocology of Carboniferous Peats	57
	by A. H. V. SMITH	
	The Palaeopedology of Coal Basins	66
	by R. FEYS	
	Discussion	72
	Bibliography	73
	List of Contributors and Discussants	76
<i>Chapter Four</i>	The Recognition of Ancient Glaciations	77
	Criteria for the Recognition of Ancient Glaciations	81
	by M. SCHWARZBACH	

	Climatic Significance of Sedimentary Deposits Containing Dispersed Megaclasts	86
	by J. C. CROWELL	
	Turbidity Currents and Glaciation	99
	by BRUCE C. HEEZEN and CHARLES HOLLISTER	
	Discussion	108
	Bibliography	110
	List of Contributors and Discussants	112
<i>Chapter Five</i>	Precambrian Glaciation	113
	The Palaeomagnetic Latitudes of Possible Ancient Glaciations	115
	by R. W. GIRDLER	
	Evidence of Late Precambrian Glaciation and its Significance	119
	by W. B. HARLAND	
	The Infra-Cambrian Glaciation and the Origin of the Cambrian Fauna	150
	by M. J. S. RUDWICK	
	Observations and Reflections on the Periglacial and Glacial Formations of the Upper Brioverian (Armorican Massif)	155
	by L. DANGEARD	
	Late Precambrian Pebbly Mudstone in Normandy, France: Tillite or Tilloid?	159
	by EDWARD L. WINTERER	
	Bibliography	178
	List of Contributors	187
<i>Chapter Six</i>	Geophysical Techniques and Ancient Climates	189
	The Connexion between Palaeomagnetism and Palaeoclimates	191
	by S. K. RUNCORN	
	Palaeolatitude Spectra of Sedimentary Palaeoclimatic Indicators	199
	by J. C. BRIDEN and E. IRVING	
	Correlation between Gravity Anomalies, Transcurrent Faults and Pole Positions	224
	by J. C. L. HULLEY	
	Palaeotemperatures of the Permian and Cretaceous Periods	227
	by HEINZ A. LOWENSTAM	
	Bibliography	248
	List of Contributors	252
<i>Chapter Seven</i>	Devonian Climate	253
	The Distribution of Lower Devonian Faunas	255
	by J. SHIRLEY	
	Devonian Northern Hemisphere Ammonoid Distribution and Marine Links	262
	by M. R. HOUSE	

	Palaeolatitudes of the Continents in the Devonian as Revealed by the Natural Remanent Magnetization of Rocks	269
	by K. M. CREER	
	Characteristic Features of the Palaeogeography and Strati- graphy of the Devonian of Brazil and South Africa	285
	by REINHARD MAACK	
	Palaeogeographic and Palaeoclimatic Features of the Southern Brazilian Devonian	293
	by J. J. BIGARELLA	
	Bibliography	297
	List of Contributors	303
<i>Chapter Eight</i>	Theoretical Considerations and Quaternary Climates	305
	The Laws of Physical Palaeoclimatology and the Logical Significance of Palaeoclimatic Data	309
	by E. A. BERNARD	
	Basic Ideas on the General Circulation of the Atmosphere	322
	by P. A. SHEPPARD	
	The Role of Atmosphere and Oceans in Relation to Climatic Changes and the Growth of Ice-Sheets on Land	332
	by H. H. LAMB	
	Comments on the Theory of Glaciation	348
	by MAURICE EWING	
	Climatically Induced Faunal Migrations: Examples from the Littoral Fauna of the Late Pleistocene of Norway	353
	by NILS SPJELDNAES	
	African Ice-Age Aridity	356
	by RHODES W. FAIRBRIDGE	
	Bibliography	360
	List of Contributors	363
<i>Chapter Nine</i>	Recognition of Arid Climates and Wind Direction Studies	365
	Problems on the Recognition of Arid and of Hot Climates of the Past	367
	by EDWIN D. MCKEE	
	The Relevance of Palaeontological Data Concerning Evidence of Aridity and Hot Climates in Past Geologic Ages	378
	by EDWIN H. COLBERT	
	Geologic Features Demonstrating Aridity of McMurdo Sound Area, Antarctica	382
	by ROBERT L. NICHOLS	
	Discussion	393
	Palaeowinds in the Western United States	394
	by F. G. POOLE	
	Palaeowind Patterns in the Botucatu Sandstone (Triassic- Jurassic) of Brazil and Uruguay	406
	by J. J. BIGARELLA and R. SALAMUNI	

	Palaeowind Directions and Palaeomagnetic Latitudes	409
	by S. K. RUNCORN	
	Discussion	419
	Bibliography	421
	List of Contributors and Discussants	425
<i>Chapter Ten</i>	Carbonates and Evaporites	427
	The Importance of Limestone and its Ca/Mg Content to Palaeoclimatology	431
	by RHODES W. FAIRBRIDGE	
	Discussion	477
	The Temperature of Evaporite Formation	479
	by O. BRAITSCH	
	The Distribution of Evaporites in Space and Time	491
	by FRANZ LOTZE	
	Discussion	507
	Solar Cycle and Other Climatic Periods in Varvitic Evaporites	510
	by G. RICHTER-BERNBURG	
	Discussion	520
	Bibliography	521
	List of Contributors and Discussants	533
<i>Chapter Eleven</i>	Permian Climate	535
	Permian Zoogeography and its Bearing on Climate	537
	by F. G. STEHLI	
	Evidence of Latitude from Permian Palaeomagnetic Data	550
	by A. E. M. NAIRN	
	Comparison of Permian Magnetic and Zoogeographic Poles	558
	by CHARLES E. HELSLEY and F. G. STEHLI	
	Discussion	563
	Brackish Oceans as the Cause of the Permo-Triassic Marine Faunal Crisis	566
	by A. G. FISCHER	
	Discussion	575
	Bibliography	577
	List of Contributors and Discussants	580
<i>Chapter Twelve</i>	Palaeontology and Climate	581
	An Ecological Approach to the Study of Fossil Marine Invertebrates	583
	by G. Y. CRAIG	
	The Fossil Record and Our Knowledge of it	590
	by J. W. DURHAM	
	Discussion	594
	Some Biological and Palaeogeographical Factors in the Evaluation of Ancient Climates	597
	by CURT TEICHERT	

Fauna and Environment in the Lowest Turonian (<i>Actinocamax plenus</i> Subzone) of the Anglo-Paris Basin	600
by R. P. S. JEFFERIES	
Growth Patterns of Silurian Tabulata as Palaeoclimatologic and Palaeogeographic Tools	608
by A. G. FISCHER	
Discussion	616
Climatic Zonation and Terrestrial Faunas	617
by EDWIN H. COLBERT	
Discussion	638
Bibliography	639
List of Contributors and Discussants	643
<i>Chapter Thirteen</i> Problems of Sediments and Soils	645
Origin of Red Beds—Some Unsolved Problems	647
by FRANKLYN B. VAN HOUTEN	
Discussion	659
Mobilization and Immobilization Phenomena in Soils	661
by C. BLOOMFIELD	
The Relationship between the Magnetic Susceptibility and the History of Soils	666
by E. LE BORGNE	
Bibliography	669
List of Contributors and Discussants	673
AUTHOR INDEX	675
NAME INDEX	685
SUBJECT INDEX	697
