CONTENTS

<i>List of contributors</i>	vi	<i>Preface</i>	ix
Introduction			1
<i>A. J. Rutter</i>			
Analysis of gas exchange between plants and polluted atmospheres			5
<i>M. H. Unsworth, P. V. Biscoe and V. Black</i>			
Factors determining fluoride accumulation in forage			17
<i>A. W. Davison and J. Blakemore</i>			
Experimental approaches to the effects of airborne fluoride on plants			31
<i>D. C. McCune, D. C. MacLean and R. E. Schneider</i>			
Effects of ozone on economic plants			47
<i>W. J. Manning and W. A. Feder</i>			
The phytotoxicity of sulphur dioxide in relation to measurable responses in lichens			61
<i>E. Nieboer, D. H. S. Richardson, K. J. Puckett and F. D. Tomassini</i>			
Sulphur dioxide resistance in plants: a case study of <i>Lolium perenne</i>			87
<i>J. N. B. Bell and C. H. Mudd</i>			
Biochemical effects of atmospheric pollutants on plants			105
<i>A. R. Wellburn, T. M. Capron, H.-S. Chan and D. C. Horsman</i>			
Physiological and biochemical aspects of metal tolerance			115
<i>W. Ernst</i>			
Pollution and evolution			135
<i>A. D. Bradshaw</i>			
Appendix I. An introduction to the chemistry of atmospheric pollutants			161
<i>R. Willix</i>			
Appendix II. Guide to the metabolic and biochemical effects of air pollutants on higher plants			185
<i>D. C. Horsman and A. R. Wellburn</i>			
<i>Index</i>			201
